## GRAHAM KERR

Emmy Award-winning chef **Graham Kerr** - the Galloping Gourmet - presents his "mini/maxi" method of food preparation: **minimum risk** (low-cholesterol, low-fat, low-calorie) with **maximum flavor** (full of aroma, color and texture). And while his concoctions have lost what's bad for you, his **new fast-paced half-hour shows** are still full of zany humor, helpful hints and celebrity guests. Recipes are prepared in association with the American Heart Association.

## GREAT CHEFS

**Great Chefs.** Every city in America has them - the local stars of the culinary cosmos who elevate regional favorites to international standards. From Chicago's smoky ribs to New Orleans' Cajun spice, Discovery's returning **half-hour series** comes back with 26 new episodes this fall, dropping into the kitchens of America's **Great Chefs** to learn their secrets. Along the way, viewers will also feast on the culture, music and unique atmosphere of the cities the **Great Chefs** serve.

## THE LOW CHOLESTEROL GOURMET

Viewers learn how to prepare gourmet food that's good for you on **The Low Cholesterol Gourmet.** Discovery's returning **half-hour series** is hosted by health expert and best-selling author Lynn Fischer. Each show brings zippy, zesty recipes that are low in fat, sugar and sodium but loaded with flavor. Medical experts, nutritionists and other experts visit Lynn's kitchen to deliver advice and timely health tips. All facts are supervised and approved by the National Cancer Institute. Includes 6 world premieres this fall.

A DISCOVERY ORIGINAL PRODUCTION.

## PASQUALE'S KITCHEN EXPRESS

"If I sing when I cook, the food will be happy." So says Pasquale Carpino, and fans of his returning **half-hour series** and best-selling cookbook must agree. On **Pasquale's Kitchen Express**, Carpino whips up full course gourmet meals (grilled lobster tails with tarragon; pear and mandarin flambe) in just 21 minutes, all the while belting out arias from *Rigoletto*.

## DISCOVERY JOURNAL PRIMETIME SPECIALS

Discovery brings a keen eye to world events with *Discovery Journal Primetime Specials* — 10 to 12 special events per year documenting political, social, and environmental issues of global importance.

In *Discovery Journal Primetime Specials*, leading filmmakers such as Germany's Werner Herzog cover the issues we can't ignore. Issues like capital punishment.

Crackdowns on free speech abroad and at home. Explosive urban growth. Creeping desertification in the Third World and the American Midwest. Two powerful

premieres. *Life in the Shadows* and *Out of the Shadows*, document the challenges of life after communism.

*Discovery Journal Primetime Specials* plunges viewers into stirring struggles and big issues. Probing episodes satisfy the aware consumer who seeks to understand our world... and the lives of the people who share it.

## HEART OF COURAGE

After a fuel tanker rammed her car and plunged both vehicles into the Hammond river, Anna Lang escaped and made it to the shore. Suffering from a concussion, but realizing her passengers were still trapped, she dove into the flaming river, reached the submerged car, and rescued Lana Walsh and her four-year-old son Jaye. In each half-hour episode of *Heart of Courage*, Emmy Award-winner Alex Trebek (JEOPARDY!) shares stories of normal folks who became heroes. Using archival footage and reenactments, the new show looks at their motivation - why did they do it; would they do it again?

Host: Alex Trebek

## THOSE WHO DARE

Imagine having a job where a normal day consists of flying over 200 mph, 35,000 feet above ground, and then killing the engine to see what happens. Or disarming a bomb that could blow up everything for a whole city block? That's what the heroes of Discovery's new series, *Those Who Dare*, do every day. Each half-hour episode profiles a modern day hero with a dangerous job. In documentary style, the series explores heroes, their lifestyles, families, and motivations.

## THE TREASURE HUNTERS

From the Holy Grail to the Fountain of Youth, the lure of treasure has beckoned explorers since the dawn of time. Now, join modern seekers of treasure as they launch high-tech expeditions to recover lost prizes of the ages. Half-hour episodes follow the men and women who prowl locations as near as Arizona and as far as Corsica in search of facts — and legends — for their own personal El Dorados.

## CHALLENGE

Remarkable **hour-long episodes** featuring breathtaking human adventure documentaries. Ski across the Arctic Ocean with an international team of explorers; soar into the heavens with **Fighter Aces of World War II**; confront the problems of fighting — or not fighting — wild fires on **Fire Attack**; go for a million dollars in prize money trying to land **The Big Fish**. It's daring. It's thrilling. It's always a Challenge.

## THE ADVENTURERS

There are people who live their lives on the edge - not because they have to, but because they want to. They love the adrenaline rush in risking it all: hang-gliding, wing-walking, bungee jumping. And Discovery viewers love to watch them risk it. Each regular **half-hour episode** is hosted by writer/producer/adventurer Doug McConnell, familiar to viewers as host of **Wild Things** and the **Mac and Mutley** series.

## HOLLYWOOD STUNTMAKERS

Sure it's just a stunt, but somebody still had to fall 30 stories for the camera. Actor James Coburn takes viewers behind the scenes in **Hollywood Stuntmakers**, the returning **half-hour series** about stunts, special effects and other Hollywood illusions. Arnold Schwarzenegger, Mel Gibson, Bruce Willis, and Michael Douglas are among the stars who appear in the series.

## MOMENTS OF COURAGE

Sniper fire from the top of a high-rise tower... the collapse of a crowded hotel lobby in Kansas City... the horrifying explosion of the Space Shuttle Challenger. The returning **half-hour series Moments of Courage** takes viewers beyond the headlines for the stories of tension, heroism, intrigue and real-life drama the news doesn't report. ABC News Correspondent Tom Jarriel (20/20) hosts.

### FIREPOWER

Fire a wire-guided Milan anti-tank missile at an approaching enemy tank. Or take a ride in the cockpit of a supersonic fighter as it pulls negative G's in a tricky combat maneuver. *Firepower* brings viewers 30 minutes of high-tech weaponry through the eyes of the men who use them.

## CHOPPERS

Even Leonardo da Vinci would be surprised at today's helicopters: able to lift six tons of cargo, able to fly nearly 200 mph for over 300 miles. In half-hour episodes, Discovery's returning *Choppers* explores the history of

...cal takeoff, from da Vinci's drawings to their first combat use in Korea to the laser equipped, stealthy tank killers of the Persian Gulf War.

## G.I. DIARY

Viewers get the first-hand stories of World War II G.I.s. From the desperate battle for the bridge at Remagen to the killing grounds of Peleliu, the heroes tell their stories to the accompaniment of actual combat footage in *G.I. Diary*. Episodes of this returning half-hour series feature Marines recounting the hell of Iwo Jima and Medal of Honor aces describing dogfights over the South Pacific.

## HUNTERS IN THE SKY

The acrid smell of cordite and burning oil. The red hot glare of tracers searching for you while you desperately seek their source. German or American, Canadian, British or Japanese, they all shared one thing - they were *Hunters In The Sky*. This returning half-hour series uses interviews with surviving aces and rare archival footage of aerial combat to tell the story of WWII in the air.

IT'S YOUR WORLD REACH IT.

## EMPIRE OF THE RED BEAR

Tsars and political systems come and go, but the heart of the old Russia still beats strongly. It beats on because the land goes on: the endless tundras three times the size of Canada, the strange southern mix of desert and steppe, the limitless forests.

Discovery presents *Empire Of The Red Bear*, a U.S. premiere mini-series consisting of three one-

hour episodes that explore the natural history of the former Soviet Union. The mini-series examines the strong ties to the land, the exploitation of the Stalinist era, and the growing understanding that resources are limited and the land must be protected.

## SUBMARINES: SHARKS OF STEEL

On September 22, 1914, a single German U-Boat sank the British cruisers *Aboukir*, *Hogue* and *Cressy*. War at sea was forever changed — the submarine had arrived. *Submarines: Sharks of Steel* doesn't begin in 1914, though. Four one-hour episodes will trace the development of submersibles, including plans for their use by Leonardo da Vinci,

King James VI, Tsar Peter the Great, Thomas Jefferson and Napoleon Bonaparte. The mini-series brings viewers aboard a Soviet nuclear sub for the first time. Episodes cover the rigors of sub training, the mind of the submariner, nuclear capabilities, and unorthodox applications of submarine technology — aircraft-carrying subs, midget subs, manned torpedoes, Japanese monster subs and many more.

## HOW THE WEST WAS LOST

As America grows more fascinated with stories of Native Americans, Discovery presents its new six part mini-series, *How The West Was Lost*. The mini-series will examine the settling of the American West from the point of view of the peoples who lived here before the White Man arrived. Descendants of Native American leaders and chiefs will finally get to tell their side of the

MOTHER  
NATURE

## MOTHER NATURE

Like nature herself, *Mother Nature* is a varied, diverse and rich collection of life on earth. Surprising explorations into the habits of familiar animals. Exciting encounters with the unusual and unknown. And a continuing reevaluation of man's relationship with his fellow offspring. *Mother Nature*. Daily half-hour

shows in this returning anthology are drawn from two of the anthology's best programs: *Wild Side* - a revealing glimpse of non-exploitative, mutually respectful relationships between animals and man hosted by Sir David Attenborough; and *Profiles of Nature* - an intimate examination of animal behavior, focusing on habitat, social skills and parenting.

## WILDLIFE CHRONICLES

What happens when master cinematographers turn their talents to revealing the full spectrum of animal behavior? You get *Wildlife Chronicles*, the returning half-hour nature series that brings you intimate portraits of animals and glorious, breathtaking views of their world. Winner of cable's ACE Award, *Wildlife Chronicles* records sea otter's extraordinary patience and knowledge as they pursue dinner. Filmmakers also follow a four day old baby

## THE ARCTIC

A vast wilderness or a delicately balanced ecosystem? The site of countless massacres of whales and walrus or a harsh environment untouched by man? *The Arctic* gives viewers a chance to understand the area singled out this year by the United Nations as a "Natural Site of World Heritage Quality." Discovery's returning award-winning **half-hour series** documents the untouched lives of polar animals, the critical balance of nature, and the threats looming in the future.

## THE NATURAL WORLD

The high-quality photography and great close-ups in Discovery's flagship nature anthology *The Natural World* give viewers an intimate perspective on nature. **Hour-long episodes** are taken from our best nature and wildlife programs,

including *The Leopard That Changed its Spots*, *Peacock's War*, *Portrait of A Planet*, *The Wonderful Kangaroo*, and *Daphne Sheldrick and the Orphans of Tsavo*. *The Natural World* also serves as an environmental vehicle for Discovery.

## WILDLIFE JOURNEYS

In the wild, movement is a key to survival. Discovery's new half-hour series *Wildlife Journeys* focuses on the natural world in perpetual motion: seasonal migrations, journeys to find new habitats and ~~avoid natural enemies and the ever encroaching world of man.~~ Some episodes follow natural highways like rivers, exploring the diverse forms of life encountered as the river flows to the sea. Others explore how animals move and why, or the lengths to which animals go to define their territories and find mates. A CO-PRODUCTION OF DISCOVERY AND THE BBC NATURAL HISTORY DEVELOPMENT UNIT
